		MGM SPRINGFIELD OFF-SITE MITIGATION - 5/21/18 TO 6/1/18	
		WORK HOURS: 7:00 AM TO 3:30 PM	
		FOR CONSTRUCTION-RELATED INQUIRES PLEASE CONTACT: JMARTIN@DVNPT.NET	
		OFF-SITE MITIGATION	
LOC#	**ZONE**	**LOCATION DESCRIPTION**	**DESCRIPTION OF WORK**
1	A	Dwight Street & I-291 Off Ramp	No work anticipated
2	B	Locust Street & Mill Street	Traffic signal timing adjustments. New traffic line striping. Individual parking spaces may be impacted while work is taking place. Some noise, dust, & vibration may result. A police detail is anticipated. Activity will proceed on an intermittent basis due to normal sequencing of work tasks, subcontractors, & coordination of work.
3	B	Main Street & East Columbus Avenue	Traffic signal timing adjustments. New traffic line striping. Individual parking spaces may be impacted while work is taking place. Some noise, dust, & vibration may result. A police detail is anticipated. Activity will proceed on an intermittent basis due to normal sequencing of work tasks, subcontractors, & coordination of work.
4	C	State Street & St. James Avenue	Traffic signal timing adjustments. New traffic line striping. Individual parking spaces may be impacted while work is taking place. Some noise, dust, & vibration may result. A police detail is anticipated. Activity will proceed on an intermittent basis due to normal sequencing of work tasks, subcontractors, & coordination of work.
5	C	State Street & Oak Street	Traffic signal timing adjustments. New traffic line striping. Individual parking spaces may be impacted while work is taking place. Some noise, dust, & vibration may result. A police detail is anticipated. Activity will proceed on an intermittent basis due to normal sequencing of work tasks, subcontractors, & coordination of work.
6	C	State Street & Federal Street	Traffic signal timing adjustments. New traffic line striping. Individual parking spaces may be impacted while work is taking place. Some noise, dust, & vibration may result. A police detail is anticipated. Activity will proceed on an intermittent basis due to normal sequencing of work tasks, subcontractors, & coordination of work.
7	C	State Street & Spring Street	Traffic signal timing adjustments. New traffic line striping. Individual parking spaces may be impacted while work is taking place. Some noise, dust, & vibration may result. A police detail is anticipated. Activity will proceed on an intermittent basis due to normal sequencing of work tasks, subcontractors, & coordination of work.
8	D	Plainfield Street & Riverside Road	Traffic signal timing adjustments. New traffic line striping. Individual parking spaces may be impacted while work is taking place. Some noise, dust, & vibration may result. A police detail is anticipated. Activity will proceed on an intermittent basis due to normal sequencing of work tasks, subcontractors, & coordination of work.
9	D	Plainfield Street & Avocado Street	Traffic signal timing adjustments. New traffic line striping. Individual parking spaces may be impacted while work is taking place. Some noise, dust, & vibration may result. A police detail is anticipated. Activity will proceed on an intermittent basis due to normal sequencing of work tasks, subcontractors, & coordination of work.
10	D	Plainfield Street (between Avocado Street & West Street)	Traffic signal timing adjustments. New traffic line striping. Individual parking spaces may be impacted while work is taking place. Some noise, dust, & vibration may result. A police detail is anticipated. Activity will proceed on an intermittent basis due to normal sequencing of work tasks, subcontractors, & coordination of work.

11	D	Plainfield Street & John Street	Traffic signal timing adjustments. New traffic line striping. Individual parking spaces may be impacted while work is taking place. Some noise, dust, & vibration may result. A police detail is anticipated. Activity will proceed on an intermittent basis due to normal sequencing of work tasks, subcontractors, & coordination of work.
12	D	John Street (between St. George Road & Plainfield Street)	Traffic signal timing adjustments. New traffic line striping. Individual parking spaces may be impacted while work is taking place. Some noise, dust, & vibration may result. A police detail is anticipated. Activity will proceed on an intermittent basis due to normal sequencing of work tasks, subcontractors, & coordination of work.
13	E	Main Street & Liberty Street	Traffic signal timing adjustments. New traffic line striping. Individual parking spaces may be impacted while work is taking place. Some noise, dust, & vibration may result. A police detail is anticipated. Activity will proceed on an intermittent basis due to normal sequencing of work tasks, subcontractors, & coordination of work.
14	E	Main Street & Taylor Street	Traffic signal timing adjustments. New traffic line striping. Individual parking spaces may be impacted while work is taking place. Some noise, dust, & vibration may result. A police detail is anticipated. Activity will proceed on an intermittent basis due to normal sequencing of work tasks, subcontractors, & coordination of work.
15	E	Main Street & Worthington Street	Traffic signal timing adjustments. New traffic line striping. Individual parking spaces may be impacted while work is taking place. Some noise, dust, & vibration may result. A police detail is anticipated. Activity will proceed on an intermittent basis due to normal sequencing of work tasks, subcontractors, & coordination of work.
16	E	Main Street & Bridge Street	Traffic signal timing adjustments. New traffic line striping. Individual parking spaces may be impacted while work is taking place. Some noise, dust, & vibration may result. A police detail is anticipated. Activity will proceed on an intermittent basis due to normal sequencing of work tasks, subcontractors, & coordination of work.
17	E	Main Street & Boland Way	Traffic signal timing adjustments. New traffic line striping. Individual parking spaces may be impacted while work is taking place. Some noise, dust, & vibration may result. A police detail is anticipated. Activity will proceed on an intermittent basis due to normal sequencing of work tasks, subcontractors, & coordination of work.
18	E	Main Street & Court Street	Traffic signal timing adjustments. New traffic line striping. Individual parking spaces may be impacted while work is taking place. Some noise, dust, & vibration may result. A police detail is anticipated. Activity will proceed on an intermittent basis due to normal sequencing of work tasks, subcontractors, & coordination of work.
19	E	State Street & Chestnut Street	Traffic signal timing adjustments. New traffic line striping. Individual parking spaces may be impacted while work is taking place. Some noise, dust, & vibration may result. A police detail is anticipated. Activity will proceed on an intermittent basis due to normal sequencing of work tasks, subcontractors, & coordination of work.
20	E	State Street & Dwight Street	Utility, sewer, drain structure castings to be jackhammered & reset within milled areas. Individual parking spots to be impacted at limited intervals. Pedestrian access will be rerouted as required. Some noise, dust and vibration may result. A police detail is anticipated w/ lane shifts or alternating one way traffic. Activity will proceed on an intermittent basis due to normal sequencing of work tasks, subcontractors, & coordination of work.
21	E	State Street & Main Street	Utility, sewer, drain structure castings to be jackhammered & reset within milled areas. Individual parking spots to be impacted at limited intervals. Pedestrian access will be rerouted as required. Some noise, dust and vibration may result. A police detail is anticipated w/ lane shifts or alternating one way traffic. Activity will proceed on an intermittent basis due to normal sequencing of work tasks, subcontractors, & coordination of work.
22	E	Main Street (between State Street & Union Street)	Reconstruction of sidewalks, curbing, signs, & installation of wheelchairs ramps. Utility, sewer, drain structure castings to be jackhammered & reset within milled areas. Individual parking spots to be impacted at limited intervals. Pedestrian access will be rerouted as required. Some noise, dust and vibration may result. A police detail is anticipated w/ lane shifts or alternating one way traffic. Activity will proceed on an intermittent basis due to normal sequencing of work tasks, subcontractors, & coordination of work.

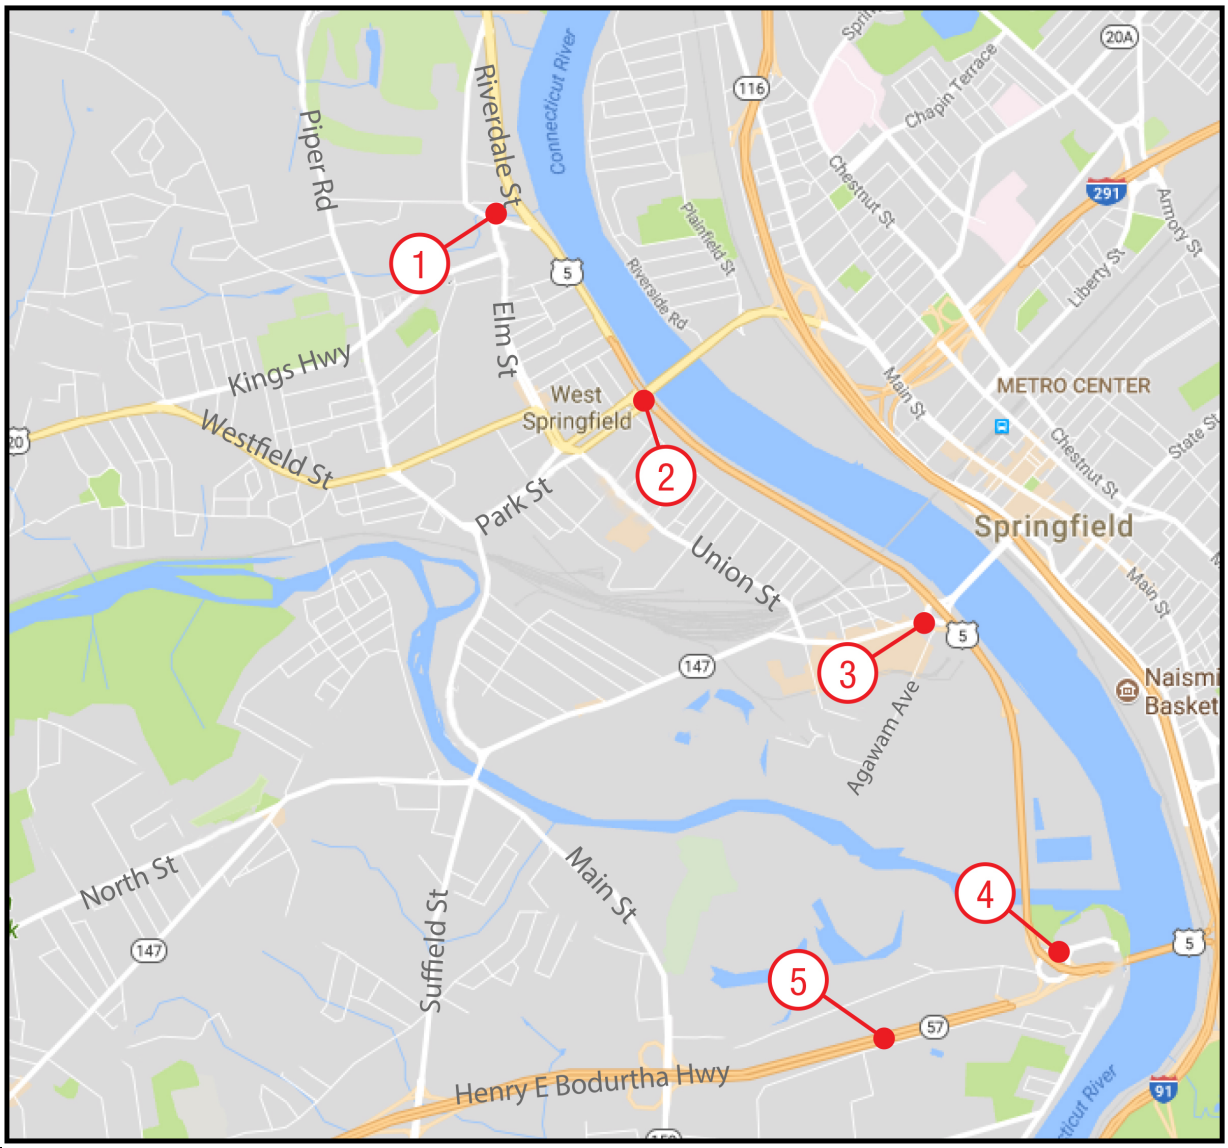
23	E	Main Street & Union Street	Traffic signal adjustments. Utility, sewer, drain structure castings to be jackhammered & reset within milled areas. Individual parking spots to be impacted at limited intervals. Pedestrian access will be rerouted as required. Some noise, dust and vibration may result. A police detail is anticipated w/ lane shifts or alternating one way traffic. Activity will proceed on an intermittent basis due to normal sequencing of work tasks, subcontractors, & coordination of work.
24	E	Boland Way & East Columbus Avenue	Traffic signal timing adjustments. New traffic line striping. Individual parking spaces may be impacted while work is taking place. Some noise, dust, & vibration may result. A police detail is anticipated. Activity will proceed on an intermittent basis due to normal sequencing of work tasks, subcontractors, & coordination of work.
25	E	Pynchon Street & East Columbus Avenue	Traffic signal timing adjustments. New traffic line striping. Individual parking spaces may be impacted while work is taking place. Some noise, dust, & vibration may result. A police detail is anticipated. Activity will proceed on an intermittent basis due to normal sequencing of work tasks, subcontractors, & coordination of work.
26	E	State Street (between Main Street & East Columbus Avenue)	Reconstruction of sidewalks, curbing, signs, & installation of wheelchairs ramps - begining during early morning hours and continuing during the day. Access to driveways on the north side of State Street (for Vape Shop, Central Barber Shop, & Crown Fried Chicken building) will be impacted. Road paving scheduled for Saturday 6/2/18 from 4:00 AM until mid-afternoon, with traffic down to one lane of travel. Utility, sewer, drain structure castings to be jackhammered & reset within milled areas. Individual parking spots to be impacted at limited intervals for all work. Pedestrian access will be rerouted as required. Some noise, dust and vibration may result. A police detail is anticipated w/ lane shifts or alternating one way traffic. Activity will proceed on an intermittent basis due to normal sequencing of work tasks, subcontractors, & coordination of work.
27	E	State Street & MGM Way	Utility, sewer, drain structure castings to be jackhammered & reset within milled areas. Individual parking spots to be impacted at limited intervals. Pedestrian access will be rerouted as required. Some noise, dust and vibration may result. A police detail is anticipated w/ lane shifts or alternating one way traffic. Activity will proceed on an intermittent basis due to normal sequencing of work tasks, subcontractors, & coordination of work.
28	E	Union Street (between Main Street & East Columbus Avenue)	No work anticipated
29	E	Boland Way (between East & West Columbus Avenue)	Traffic signal timing adjustments. New traffic line striping. Individual parking spaces may be impacted while work is taking place. Some noise, dust, & vibration may result. A police detail is anticipated. Activity will proceed on an intermittent basis due to normal sequencing of work tasks, subcontractors, & coordination of work.
30	E	I-91 Off Ramp to West Columbus Avenue	Reconstruction of I-91 Exit 6 off ramp retaining wall expected - requires installation of guardrail on top of existing retaining wall. Some noise, dust and vibration may result. A police detail is anticipated w/ lane shifts or alternating one way traffic.
31	E	Memorial Bridge & West Columbus Avenue	Reconstruction of sidewalks, curbing, signs, & installation of wheelchairs ramps. New traffic line striping. Individual parking spaces may be impacted while work is taking place. Some noise, dust, & vibration may result. A police detail is anticipated. Activity will proceed on an intermittent basis due to normal sequencing of work tasks, subcontractors, & coordination of work. Pedestrian access will be rerouted as required. Some noise, dust and vibration may result. A police detail is anticipated w/ lane shifts or alternating one way traffic. Activity will proceed on an intermittent basis due to normal sequencing of work tasks, subcontractors, & coordination of work.
32	E	State Street & East Columbus Avenue	Traffic signal timing adjustements & line striping expected. Utility, sewer, drain structure castings to be jackhammered & reset within milled areas. Individual parking spots to be impacted at limited intervals. Pedestrian access will be rerouted as required. Some noise, dust and vibration may result. A police detail is anticipated w/ lane shifts or alternating one way traffic. Activity will proceed on an intermittent basis due to normal sequencing of work tasks, subcontractors, & coordination of work.

33	E	East Columbus Avenue (between State Street & Union Street)	Traffic signal timing adjustements & line striping expected. Road paving scheduled for Saturday 5/19/18 from 4:00 AM until mid-afternoon, with traffic down to one lane of travel. Utility, sewer, drain structure castings to be jackhammered & reset within milled areas. Individual parking spots to be impacted at limited intervals. Pedestrian access will be rerouted as required. Some noise, dust and vibration may result. A police detail is anticipated w/ lane shifts or alternating one way traffic. Activity will proceed on an intermittent basis due to normal sequencing of work tasks, subcontractors, & coordination of work.
34	E	Memorial Bridge	Reconstruction of sidewalks, curbing, signs, & installation of wheelchairs ramps. New traffic line striping. Individual parking spaces may be impacted while work is taking place. Pedestrian access will be rerouted as required - the south sidewalk work will require its closure rerouting pedestrians to the north sidewalk and the north sidewalk work will require its closure rerouting pedestrians to the south sidewalk after its completion. Some noise, dust and vibration may result. A police detail is anticipated w/ lane shifts or alternating one way traffic. Activity will proceed on an intermittent basis due to normal sequencing of work tasks, subcontractors, & coordination of work.
35	E	Union Street & West Columbus Avenue	Traffic signal timing adjustements & line striping expected. Road paving scheduled for Saturday 5/19/18 from 4:00 AM until mid-afternoon, with traffic down to one lane of travel. Utility, sewer, drain structure castings to be jackhammered & reset within milled areas. Individual parking spots to be impacted at limited intervals. Pedestrian access will be rerouted as required. Some noise, dust and vibration may result. A police detail is anticipated w/ lane shifts or alternating one way traffic. Activity will proceed on an intermittent basis due to normal sequencing of work tasks, subcontractors, & coordination of work.
36	E	Union Street & East Columbus Avenue	Traffic signal timing adjustements & line striping expected. Road paving scheduled for Saturday 5/19/18 from 4:00 AM until mid-afternoon, with traffic down to one lane of travel. Utility, sewer, drain structure castings to be jackhammered & reset within milled areas. Individual parking spots to be impacted at limited intervals. Pedestrian access will be rerouted as required. Some noise, dust and vibration may result. A police detail is anticipated w/ lane shifts or alternating one way traffic. Activity will proceed on an intermittent basis due to normal sequencing of work tasks, subcontractors, & coordination of work.
37	E	State Street & West Columbus Avenue	Traffic signal timing adjustements & line striping expected. Road paving scheduled for Saturday 5/19/18 from 4:00 AM until mid-afternoon, with traffic down to one lane of travel. Utility, sewer, drain structure castings to be jackhammered & reset within milled areas. Individual parking spots to be impacted at limited intervals. Pedestrian access will be rerouted as required. Some noise, dust and vibration may result. A police detail is anticipated w/ lane shifts or alternating one way traffic. Activity will proceed on an intermittent basis due to normal sequencing of work tasks, subcontractors, & coordination of work.

MGM SPRINGFIELD OFF-SITE MITIGATION - 5/21/18-5/25/18

WORK HOURS: 7:00 AM TO 3:30 PM

FOR CONSTRUCTION-RELATED INQUIRES PLEASE CONTACT: JMARTIN@DVNPT.NET



LOC#	LOCATION DESCRIPTION	DESCRIPTION OF WORK
1	Elm Street & Route 5	Excavation and installation of electrical service platform. Loam and seeding. No lane closures in effect. A police detail is anticipated..
2	Roundabout at Route 5 and North End Bridge	Excavation and installation of electrical service platform. Installation of camera pole, street light foundation, and loam and seed. No lane closures in effect. A police detail is anticipated.
3	Roundabout at Route 5 and Memorial Bridge	Excavation and installation of electrical service platform. Installation of camera pole loam and seed. The right lane will be closed to traffic while work is being performed. A police detail is anticipated.
4	Route 5, South End Rotary and Route 57 On-Ramp	Excavation and installation of electrical service platform, loam and seed. Installation of camera pole. No lane closure in effect. A police detail is anticipated.
5	Route 57 near Intersection of Corey Street/Alexander Drive	Excavation and installation of electrical service platform, loam and seed. No lane closure in effect. A police detail is anticipated.
